

10 February 1965

MEMORANDUM FOR: 

I have the following items for follow up in connection with today's hearings before the Defense Subcommittee of House Appropriations:

In the Soviet economy portion,  asked for the ratio of grants to loans in foreign aid.  said he did not have exact figures but thought it would be low, perhaps ten per cent or maybe even five per cent. I believe  would appreciate whatever we can give him on this.

 wanted figures on the comparative aid, economic and military, given by the U. S. S. R. and the U. S. to Indonesia, United Arab Republic, and Afghanistan.

 wanted to know how many Cubans were still working on the Guantanamo base.

In connection with Thailand,  wanted to know what per centage of the Thai population was in the troublesome northeast area.  thought possibly 20 per cent but I think we will want to follow up on this.
